

# INVENT YOUR OWN ROBIN HOOD

The Robin Hood legend is more than 500 years old.

Robin Hood stories have been told in every genre you can think of, from ancient poems to movies, operas and video games.

Most traditional Robin Hood tales are set in England's Sherwood Forest during the fifteenth or sixteenth centuries. In these stories Robin is usually a young man with superb archery skills who steals from the rich and gives to the poor.

But there are many radically different versions. Robin has been depicted as a schoolgirl, a dying old man and pretty much everything in between. Creators have made Robin into a police officer in modern day India, a boy living in the Australian outback and even a spaceship captain!

Use your imagination to invent your version of Robin Hood. It could be a traditional Robin Hood character or something completely crazy!
