STUDY OBJECTIVES AND METHODOLOGY

STUDY OBJECTIVES

National Library Board first conducted the **National Reading Habits Study** (NRHS) in 2016, with its subsequent run in 2018, in order to **track leisure reading trends** among Singapore residents.

In this report, we highlight the reading habits of adults (i.e. aged 20 years old and above).

Specifically, the study seeks to understand:

1

Reading habits

- Are adults reading?
- What type of materials do adults read?
- Are bilingual adults reading in their mother tongue language?

2

Reading preferences

- What do adults like to read?
- What non-fiction topics do adults read?
- What fiction genres do adults read?

3

About books

- Are adults still reading books?
- Where do adults get their books from?

4

About SingLit

- Are adults reading SingLit books?

5

Reading motivations and barriers

- What are the reading motivations and barriers for adults of different ages?

DEFINITION OF READING

Reading is defined as having read any of the following types of materials.

Books include e-books, audio books as well as physical books. This covers both non-fiction and fiction books, excluding textbooks.

News refers to printed newspapers as well as online news.

Online Articles refer to articles, blogs or essays posted on social media (such as Facebook, LinkedIn, Tumblr, Twitter) or websites.

Magazines include both physical and digital magazines.

Reports, e.g. annual company reports or trade reports.

This study excludes reading related to communications such as emails and WhatsApp messages.

METHODOLOGY

The **Study** was conducted using **door-to-door surveys**, similar to the 2016 study.

Door-to-door surveys

- ✓ **3,636 surveys** were conducted **nation-wide via door-to-door interviews** by trained interviewers, which gave a margin of error of **±1.55%** at 95% confidence level.
- ✓ **Singapore residents** (i.e. Singapore citizens and Singapore Permanent Residents) **aged 20 years and above** were randomly chosen for the survey. Sample quotas by age, gender, ethnicity, housing type and residence status were applied to ensure that the sample collected is representative of the Singapore Resident population.
- ✓ The surveys were conducted at **different times** of the day, on **both weekdays and weekends**, to capture all demographic profiles.
- ✓ Each survey lasted on average about **30 minutes**.
- ✓ Surveys were conducted from **4 May to 10 September 2018**.

Notes on Analysis:

Significant differences between the 2018 findings and 2016 findings at the 95% C.I are denoted with the following symbols:

Significantly higher in 2018 than in 2016

Significantly lower in 2018 than in 2016

PROFILE OF RESPONDENTS (1)

The survey sample is **representative of the Singapore resident population** in terms of age, gender, ethnicity, residency status and dwelling type.

Residency Status	n	% of Total
Singapore Citizen	3211	88%
Singapore Permanent Residents	425	12%
Total	3636	100%

Age	n	% of Total
20-29 years old	646	18%
30-39 years old	702	19%
40-49 years old	729	20%
50-59 years old	661	18%
60 years old and above	898	25%
Total	3636	100%

Gender	n	% of Total
Male	1726	48%
Female	1910	52%
Total	3636	100%

Ethnicity	n	% of Total
Chinese	2788	77%
Malay	426	12%
Indian	340	9%
Others	82	2%
Total	3636	100%

Dwelling Type	N	% of Total
1 or 2-room HDB flat	164	4%
3-room HDB flat	580	16%
4-room HDB flat	1231	34%
5-room/ Executive HDB flat	946	26%
Executive Condominium/HUDC	34	1%
Condominium/ Apartment / Private Flat	446	12%
Private Landed Property	235	7%
Total	3636	100%

PROFILE OF RESPONDENTS (2)

Marital Status	N	% of Total
Single	923	25%
Married with children	2326	64%
Married without children	209	6%
Widowed/Separated/Divorced	172	5%
Refused	6	0%
Total	3636	100%

Occupation	n	% of Total
Legislators, Senior Officials, Managers	189	5%
Professionals	683	19%
Associate Professionals and Technicians	473	13%
Clerical Support Workers	226	6%
Service and Sales Workers	481	13%
Agricultural and Fishery Workers	5	0%
Craftsmen and Related Trades Workers	31	1%
Plant and Machine Operators and Assemblers	90	3%
Cleaners, Labourers and Related Worker	113	3%
Self-employed	0	0%
Retired	450	12%
Full-time National Serviceman	36	1%
Full-time Homemaker	463	13%
Unemployed currently	163	4%
Students	207	6%
Others, please specify:	1	0%
Refused	25	1%
Total	3636	100%

Highest Attained Education Level	n	% of Total
Primary School or below	405	11%
Secondary School	911	25%
Technical / Vocational Training	180	5%
A-levels	215	6%
Diploma / International Baccalaureate	725	20%
University	927	25%
Post-Graduate or higher	273	8%
Total	3636	100%

EXECUTIVE SUMMARY

This section gives a summary of the key findings.

EXECUTIVE SUMMARY (1)

METHODOLOGY

Door-to-door interviews

SAMPLE SIZE

3,636

Singapore residents aged 20 years and above

Respondent profile representative of population

- Age
- Gender
- Ethnicity
- Residency status
- Dwelling type

ARE ADULTS READING?

This includes reading books, magazines, newspapers/ news (print or digital), as well as online articles **in the past 12 months**.

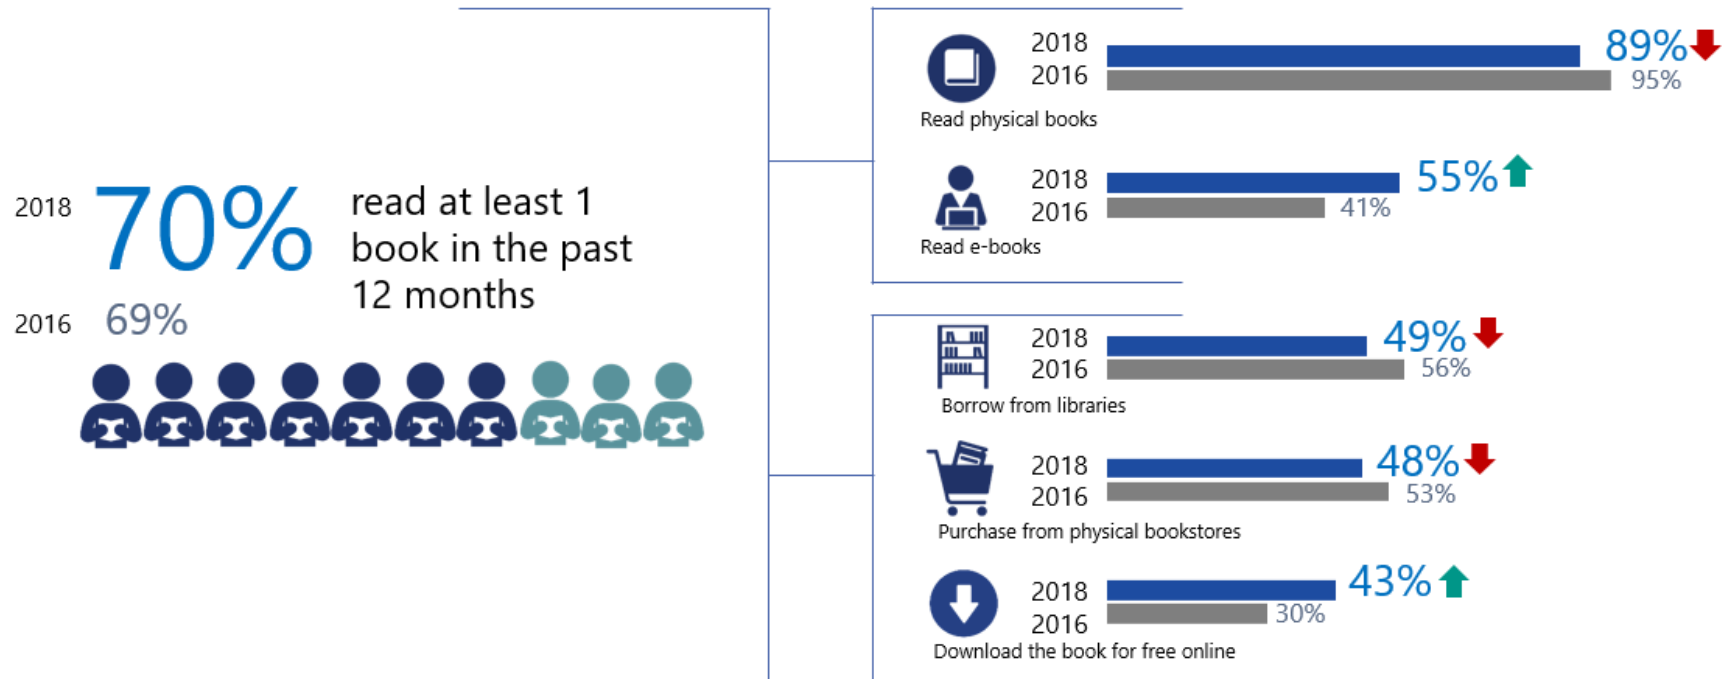

WHAT ARE ADULTS READING?

Adults read the following more than once a week...

EXECUTIVE SUMMARY (2)

ARE ADULTS STILL READING BOOKS?

TO READ OR NOT TO READ?

No change in the ranking of key motivations and barriers in 2018 compared to 2016

Motivations

I find reading enjoyable and relaxing

Barriers

I tend to spend more time on other activities

I prefer watching TV/ DVDs/ online videos

READING HABITS

This section looks into Singapore residents' reading frequency, types of materials read, reading in mother tongue languages and sharing of reads.

ARE ADULTS READING?

- ***95%** of Singapore residents **read at least once in the past 12 months**. This includes reading books (physical, e-books, or audio books), magazines (physical or digital), newspapers or online news, as well as articles posted on social media or websites.
- **More adults read more than once a week**, rising from 80% in 2016 to 88% in 2018. This increase is **across all ages**.

Read any material in the past 12 months

Read more than once a week by age

***This group will be known as “readers” (n=3,468) in the rest of this report**

Base: All respondents (2018: n=3,636; 2016: 3,515)

ARE ADULTS READING?

- Across educational levels, proportion of **residents who read more than once a week has increased, except for post-graduate or higher where majority already do so.**
- **Except for residents who live in 1-to-2 room HDB flats, proportion who read more than once a week has increased to at least 86%.**
- There is **no significant difference between gender** in reading frequency.

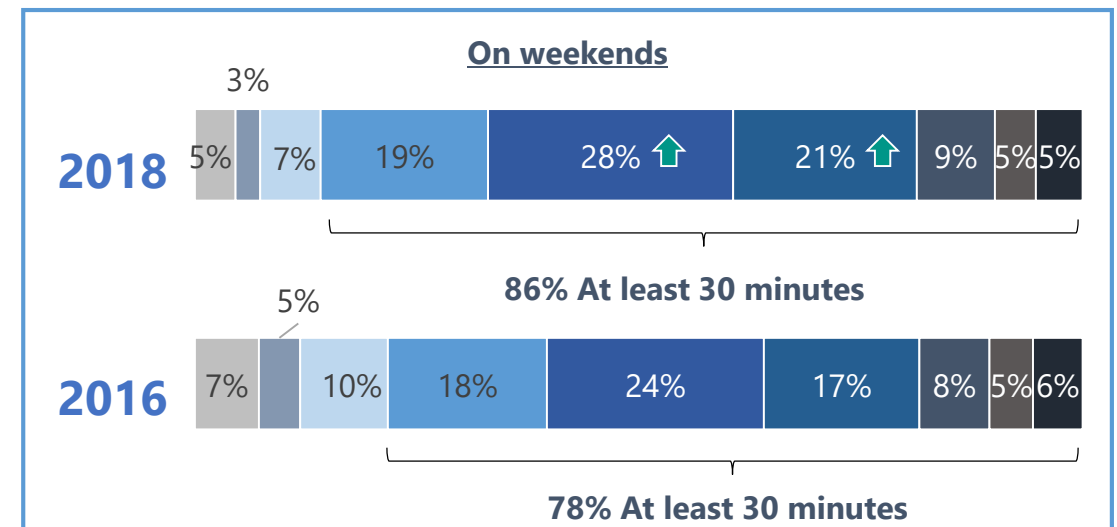

Base: All respondents (2018: n=3,636; 2016: 3,515)

HOW MUCH TIME DO ADULTS SPEND READING?

- Among Singapore adult residents, **89% spend at least 30 minutes on leisure reading on a typical weekday** in 2018 compared to 80% in 2016. This increase is due to a **higher proportion who spend up to an hour and up to 2 hours reading**.
- 86% spend **at least 30 minutes reading on weekends**, an increase from 78% in 2016.

Total time spent on leisure reading

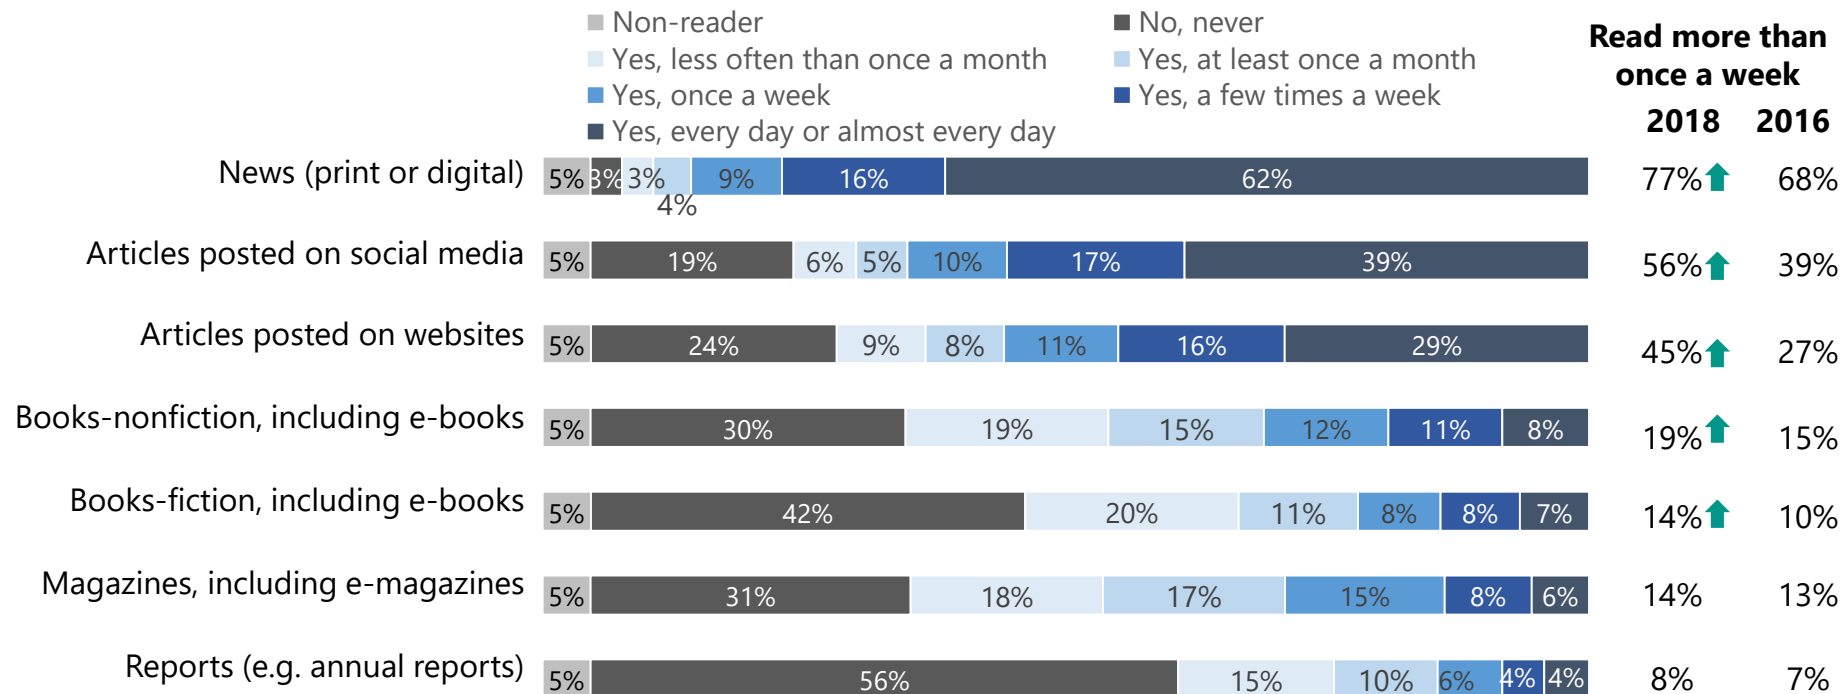

Base: All respondents (2018: n=3,636; 2016: 3,515)

WHAT TYPE OF MATERIALS DO ADULTS READ?

- **News** remains the top material read by Singapore residents, as 77% read it more than once a week.
- Comparing across types of materials, the **largest increase** is from those who have read **online articles posted on social media or websites**, increasing from 41% to 59%.
- More have read **books** more than once a week as well, rising from 19% in 2016 to 25% in 2018. 19% read non-fiction books, while 14% read fiction books.

2016: 19%

Base: All respondents (2018: n=3,636; 2016: 3,515)

WHAT TYPE OF MATERIALS DO ADULTS READ?

- **News** remains the most common material read more than once a week across age, **except for the 20 to 39 year olds** where a similar or larger proportion read **online articles**.
- More adults read **online articles** more than once a week, **except for 1 or 2-room HDB flat dwellers**.
- A higher proportion with **at least 'A' levels** read **online articles and books** more than once a week than those with lower educational qualifications.

Type of materials read more than once a week

■ News ■ Online articles ■ Books

Base: All respondents (2018: n=3,636; 2016: 3,515)

ARE BILINGUAL ADULTS READING IN THEIR MOTHER TONGUE?

- Among readers, **53%** say that they are **able to read in both English and their mother tongue** compared to 66% in 2016. Decline in bilingual readers is across all age groups.
- However, a **higher proportion of bilingual readers** say that they have **read in their mother tongue** more than once a week in 2018 compared to 2016.
- Similar to 2016, a **lower proportion of bilingual Chinese readers and bilingual Tamil readers** read more than once a week compared to bilingual Malay readers.

Language that adults are able to read in

Bilingual readers who read in mother tongue more than once a week

Base: Readers (2018: n=3,468; 2016: n=3,262); Bilingual Chinese readers (2018: n=1,282; 2016: n=1,526); Bilingual Malay readers (2018: n=353; 2016: n=316); Bilingual Tamil readers (2018: n=146; 2016: n=175)

WHAT DO ADULTS READ IN THEIR MOTHER TONGUE?

- **Among adults who read in their mother tongue**, the most common material read more than once a week is **news**, with 52% reading it every day or almost every day.
- 45% read **articles posted on social media or website** more than once a week, with 43% reading from social media.
- The proportion who have read either fiction or non-fiction **books** written in their mother tongue more than once a week is much lower, with 23% doing so.

(fiction or non-fiction)
23%

Base: Readers of mother tongue languages (2018: n=2,273; 2016: N.A as new in 2018)

WHAT DO ADULTS READ IN THEIR MOTHER TONGUE?

- Higher proportion of **adults 30 years old or older** as well as those with **secondary school or below** educational qualifications read **news** more than once a week.
- There is **no significant difference** in proportion who have read books written in their mother tongue by age, highest attained education, or dwelling type.

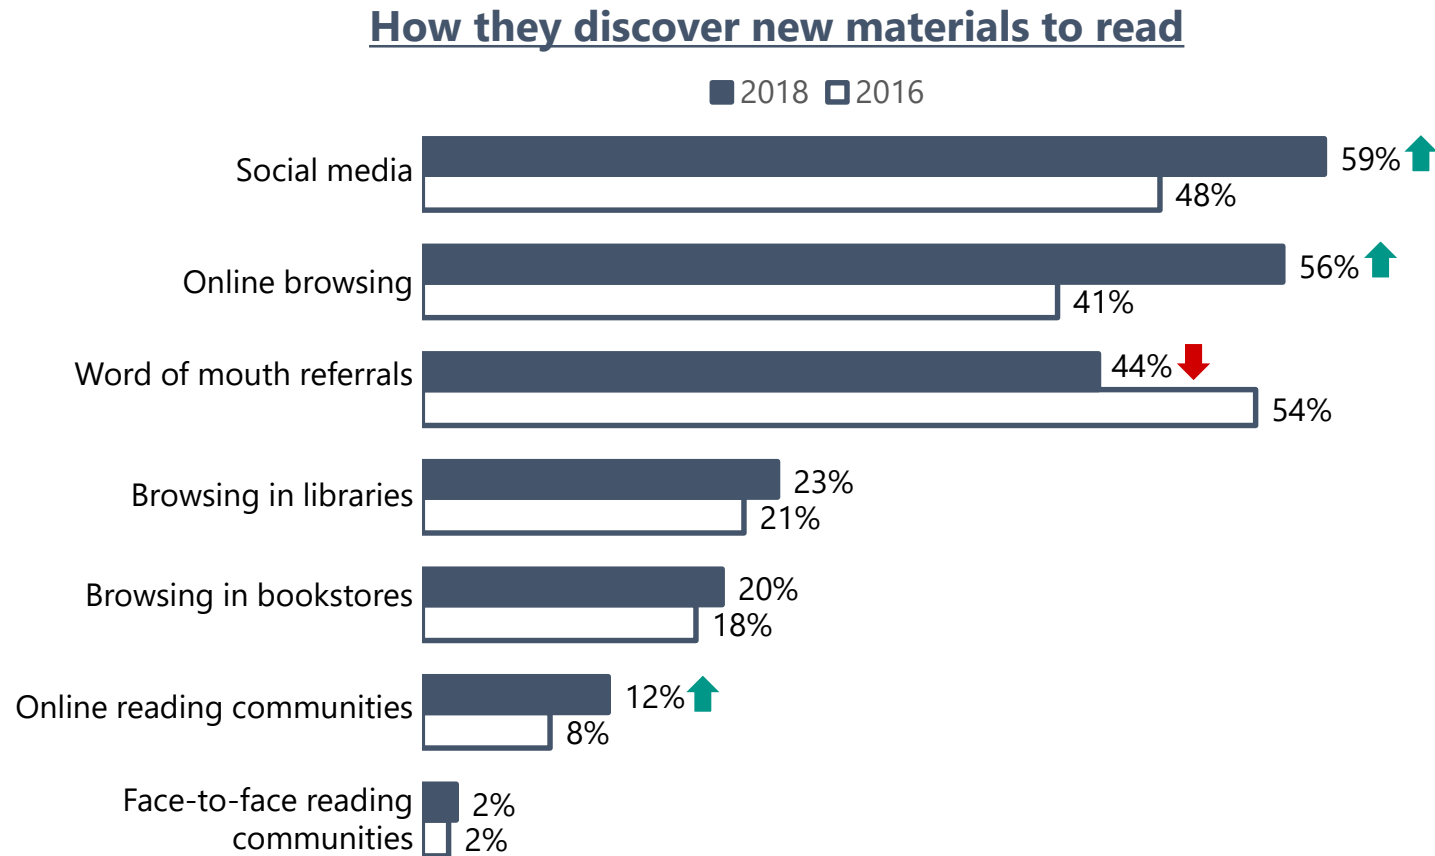

Type of materials written in mother tongue read more than once a week

Base: Readers of mother tongue languages (2018: n=2,273; 2016: not available as question was added in 2018)

HOW DO ADULTS DISCOVER NEW MATERIALS TO READ?

- Among the readers, there are significantly more who discover new reads through **social media** (59%) and **online browsing** (56%), compared to 2016. Comparatively, fewer adults discover new reads through word of mouth referrals.

Base: Readers (2018: n=3,468; 2016: n=3,262)

HOW DO ADULTS DISCOVER NEW MATERIALS TO READ?

- Proportion of adults who discover new reads through **social media** and **online browsing** has increased among all ages. **Those aged 60 years old and above still rely on word of mouth referrals.**
- Most readers with **primary school education or below continue to use mainly word of mouth referrals** to discover new reads, while a higher proportion of readers with vocational training or higher education qualifications use social media or browse online to do so.

How they discover new materials to read

■ Social media ■ Online browsing ■ Word of mouth referrals

Base: Readers (2018: n=3,468; 2016: n=3,262)

HOW DO ADULTS SHARE OPINIONS ON WHAT THEY READ?

- 66% of readers share their opinions on what they are reading with others, higher proportion than in 2016.
- Among these readers, majority (83%) continue to do so via **informal chats** and 49% via **social media**.
- While majority across all age groups share their opinions via informal chats, a larger proportion of the **younger age groups do so via social media**, similar to 2016.

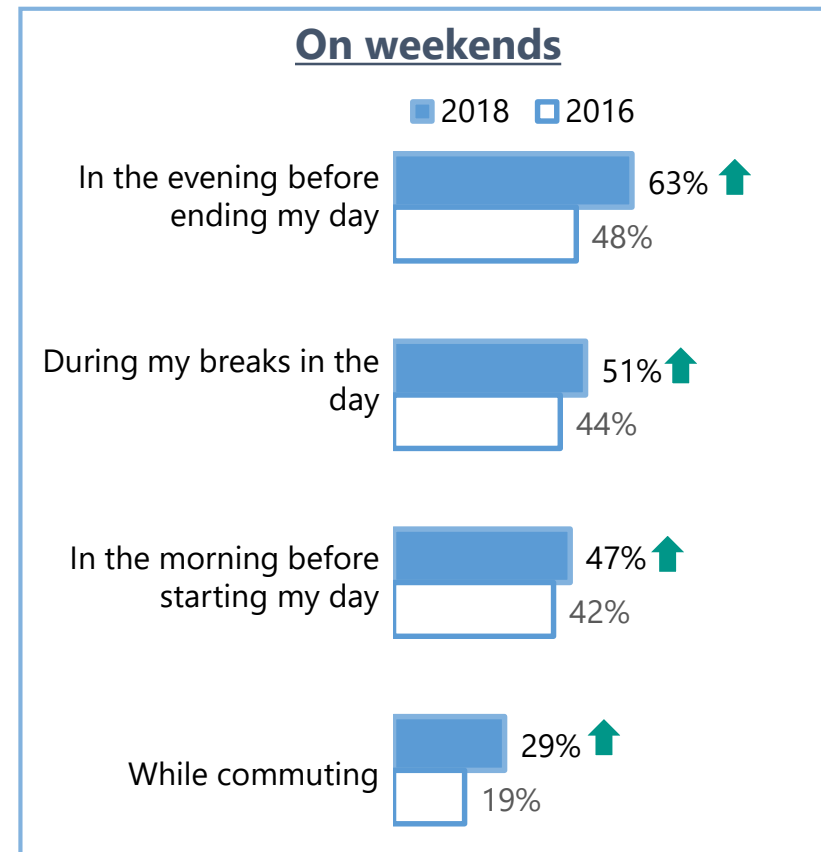

Share opinions/ recommendations on reading materials

Base: Readers (2018: n=3,468; 2016: n=3,262)

WHEN DO ADULTS READ?

- About 60% **read in the evening** on both weekdays and weekends.
- **Higher proportion of adults read** in the **evening**, during **breaks** in the day and **while commuting** on both weekdays and weekends in 2018 compared to 2016.

Base: Read on weekdays (2018: n=3,454, 2016: n=3,227); Read on weekends (2018: n=3,369, 2016: n=3,098)

WHEN DO ADULTS READ?

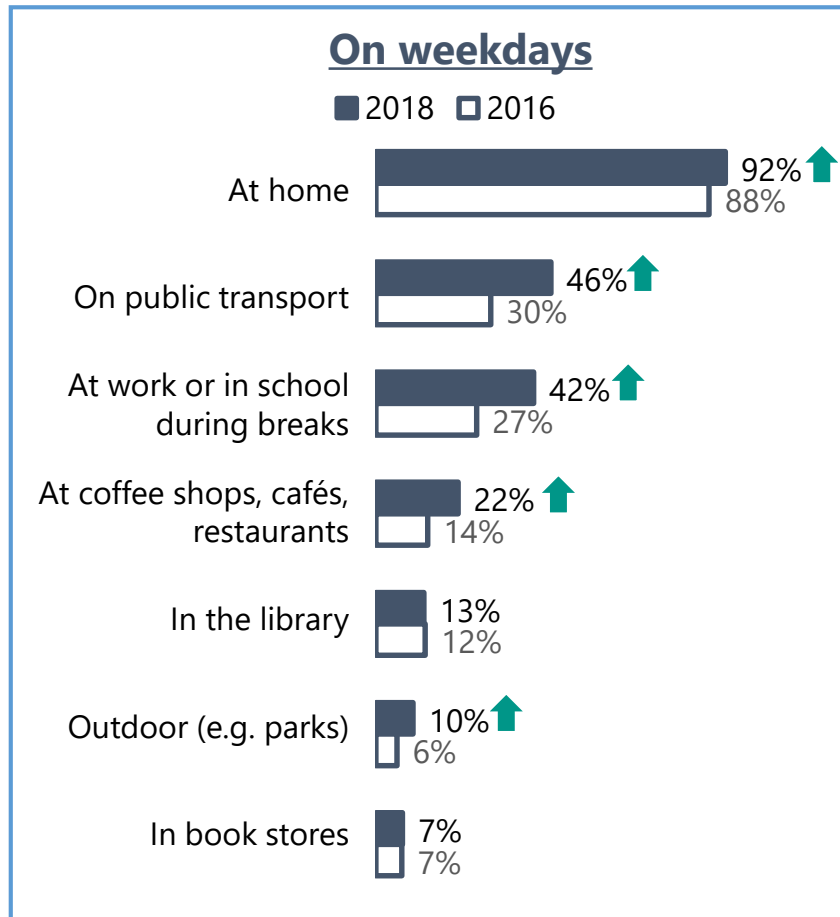

- A much higher proportion (69%) of **adults in their 20s** read **while commuting** on weekdays, compared to other ages.
- About 60% of **adults 60 years old and above** read as part of their **morning routine** on both weekdays and weekends.

Base: Read on weekdays (2018: n=3,454, 2016: n=3,227); Read on weekends (2018: n=3,369, 2016: n=3,098)

WHERE DO ADULTS READ?

- Most readers read **at home**, but there is **increase in proportion who read on public transport** while commuting during weekdays or weekends, as compared to 2016.

Base: Read on weekdays (2018: n=3,454, 2016: n=3,227); Read on weekends (2018: n=3,369, 2016: n=3,098)

READING PREFERENCES

This section describes the top genres read for fiction and non-fiction for the various demographic groups.

WHAT DO ADULTS LIKE TO READ?

- All readers read **non-fiction topics** through either books (physical, e-books, or audio books), magazines (physical or digital), news, or online articles in 2018.
- Top non-fiction topics read are similar to 2016**, with clear **differences in topics read across gender and highest attained education level**.
- 68% of readers read fiction compared to 57% in 2016, with **increase in proportion of fiction readers among those who are 30 years old or above**.

Top non-fiction topics read

Base: Readers (2018: n=3,468; 2016: n=3,262)

Read fiction

WHAT NON-FICTION TOPICS DO MALES READ?

- Among men in their 20s and 30s, those in their 20s read about **current affairs, sports**, information about **Singapore**, science, IT, and travel, while **men in their 30s** also read about **business and finance**.
